

Dorian Gray

Swiss genius **DORIAN GRAY** rises above the sound of Muse and Radiohead to create a dreamy, euphoric song of extreme beauty. Let it last forever.

Buy the album "**Hurt by the moon**".

Swiss musician Dorian Gray hails from the beautiful city of Geneva and has come up with a lyrical, soft blend of pop that suits their origins. One of the strength of Forever More as a song is its understated power. The orchestration is clever and understated, but there is a solid wall of guitar underpinning the delicate vocal melody that gives this song the kind of balls that a decent ballade requires. Taken off a 14-track album that has been doing very well for Dorian online, Forever More showcases both his song-writing and vocal talents to excellent effect.

Matchbox Recordings UK, June 2006
